

GENERAL DIAZ IS AGAIN PRESIDENT OF MEXICO; OPENING EIGHTH TERM

Ramon Corral Takes Vice-Presidential Oath—Revolutionary Crisis Robbed Event of All Pageantry

MEXICO CITY, Dec. 1.—Precaution against disorders throughout the city and against violence at the palace, marked the inauguration of President Forfiro Diaz and Vice President Ramon Corral today.

President Diaz entered his eighth presidential term with the country threatened by the most serious disorders of his regime.

Restraint caused by the activities of the insurgents was noticeable throughout the city. The populace was barred from the congressional halls and the only persons admitted to the inaugural ceremonies were officials. President Diaz later received the members of the diplomatic corps

and representatives of the loyal press. The ceremonial occurred at 10 o'clock in the hall of the palace of mines, where the chamber of deputies has been holding its session pending the completion of its new home.

Official celebration of the inauguration was held at the municipal palace in Torreón. No further disturbances are expected in Torreón, but the authorities are exercising the greatest vigilance to guard against surprise.

The roads leading into Torreón are guarded by rurales and the chiefs of police of both Torreón and Gomez Palacio.

Today marks the final date for the period designated by Madero in his proclamation for popular uprising.

TWO STATES SECURE NEW CONGRESSMEN

Six for Pennsylvania and One for West Virginia—Med- ford's Marvelous Gain

WASHINGTON, Dec. 1.—The population of Pennsylvania is 7,665,111; that of West Virginia is 1,221,119.

Pennsylvania's increase is 21.6 per cent, entitling the state to six new congressmen. West Virginia's increase is 27.4 per cent, entitling her to one additional congressman.

Medford, Oregon, has a population of 8,840, an increase of 7,049.

MRS. GLOVER TELLS HER LIFE HISTORY

Story Extorted From Her by Lawyer Who Accuses Her of Husband's Murder

CAMBRIDGE, Mass., Dec. 1.—A sensation seeking mob thronged the courtroom today at the trial of Hattie Le Blanc, aged 17 years, on the charge of the murder of Clarence Glover.

Attorney Melvin Johnson for the defendant, who yesterday declared in court that Glover's wife was guilty of the crime, calling her a "vampire," recalled Mrs. Glover to the stand. Under cross-examination he secured the woman's life history and her relations with Glover.

BEAUTIFUL GREEK FLEES FROM HAREM

Escapes With Companion and Pleads to Remain Here to Save Her Life

NEW YORK, Dec. 1.—By declaring that she had escaped from a harem in Damascus and that she would be killed if she should be returned to her owners, was Marie Hopla, a beautiful Greek, permitted to remain in America temporarily by the immigration authorities.

The girl was held at Ellis Island, with Antonio Jahara who rescued her, they reaching America after thrilling adventures. If the story proves true, they will be permitted to remain here.

ASSESSORS FROM 35 COUNTIES AT FRESNO

FRESNO, Dec. 1.—Assessors from thirty-five California counties met in convention in Fresno today. State President Kay of Sacramento called the meeting to order. A score of railroad men, including Jere Burke and Walter Parker, were present, causing the prediction that railroad valuations will be discussed. All members of the State Board of Equalization are present or coming.

THE NELSON-MORAN MILL TO BE PROBED

Church Federation of Frisco to Join Fickert—Warrants May be Sworn Out

SAN FRANCISCO, Dec. 1.—Attorney J. E. White for the Church Federation today received and accepted an invitation from District Attorney Fickert to co-operate in an investigation of the Nelson-Moran fight on Saturday night.

Fickert asserted his belief that the law was not violated. He has appointed Deputy Lane to prosecute the principals and promoters of the fight if White swears out warrants.

White declared today that he will secure the warrants. He refused to deny the report that he had detectives at the fight whom he will call as witnesses.

TIMES JURY MAY BE IN SESSION MANY WEEKS—OFF TODAY

LOS ANGELES, Dec. 1.—Deputy District Attorney McComas declared today that his statement that the work of the "Times" grand jury was almost completed, was misconstrued. McComas reiterated that the work is nearing an end, but that many details may keep the jury in session for several weeks.

The jury adjourned today because of it being the first of the month to permit them to attend to private business. It reconvenes tomorrow.

NEW ORLEANS WILL TRY THUMB SCREWS ON THE RAILROADS

WASHINGTON, Dec. 1.—"If you don't withdraw your support at San Francisco and stay out of the fight it will cost you eighteen millions," said a telegram received today at the New York offices of the Southern Pacific.

The message was sent by the New Orleans Panama exposition committee. New Orleans is exerting similar pressure on other roads favoring San Francisco. Both sides claim increasing strength in the lower house of congress.

CABINET CALLED TO CONSIDER MESSAGE

WASHINGTON, Dec. 1.—A hurried call for a cabinet meeting today indicates that President Taft has finished a draft of his message to congress. It is believed the document will go to the printer tonight.

FORSAKES OFFICE FOR MISS HELEN'S COMING OUT DAY

WASHINGTON, Dec. 1.—President Taft forsook official duties today long enough to attend his daughter Helen's "coming out" reception. With others the president took tea in the White House reception room.

NIPPON WARSHIP POST AT SAN PEDRO

Thousands of Japanese Pour Into Harbor to Greet Their Countrymen

SAN PEDRO, Dec. 1.—The Japanese training ships Amasa and Kasagi, Admiral Yashiro commanding, anchored in the outer harbor at 8:30 this morning. They were welcomed by reception committees representing the Japanese organizations and the city of Los Angeles.

This city resembles a Japanese seaport. Since dawn hundreds of Japanese have been thronging in on the incoming trains.

It is estimated three thousand Japanese are here to welcome their countrymen. The Nipponese apparently outnumber the whites on the streets. The visiting vessels received visitors this afternoon, but none but Japanese are taking advantage of the opportunity.

ARIZONA SURE TO HAVE THE RECALL IN CONSTITUTION

PHOENIX, Dec. 1.—A plan providing for separate submission to the voters of the proposition making executive, judicial and legislative officials subject to recall was defeated by the constitutional convention today with a vote of thirty-six to eleven.

It is predicted the proposition will be incorporated in the constitution by practically the identical vote of today. The recall is applicable on a petition signed by twenty-five per cent of the voters.

BRADFORD IS FOREMAN GRAND JURY

Judge West Charges Men Who Are to Go on Annual Of- ficial Search

H. W. LEWIS IS CHOSEN SECRETARY

Special Venire Ordered and From It Two of Nineteen Men Were Taken

In the superior court this morning a grand jury was selected and sworn in. With A. S. Bradford of Placencia appointed foreman, the grand jurors retired and selected Harry W. Lewis of Tustin as secretary.

When court opened at 10 o'clock it was found that thirteen out of the thirty men named by Judge West as the venire were disqualified, excused or out of the state. W. F. Reiland, Henry Diers and W. A. Bear were out of the state; U. S. Lemon was disqualified; A. J. McFadden, being an attorney, and C. A. Barton, being a city official, were disqualified. J. H. Gilmore and L. D. Gearhart were not on the assessment roll. W. H. Burnham and David Berisch were excused, the former by reason of hard hearing and the latter because of sickness in his family.

A special venire of five men was ordered, and Sheriff Lacy brought in J. E. Liebig, J. N. Bill, W. A. Blizard, J. A. Nunn and D. G. Cole. The last two named were drawn to fill out the nineteen needed for the grand jury.

The grand jurors are: A. S. Bradford, R. H. English, Jacob Walton, S. D. Winters, T. F. Tedford, Samuel Talbert, W. H. Johnston, W. D. Seelye, J. C. McDowell, J. R. Fletcher, F. L. Ainsworth, J. W. Flagg, W. C. Crawford, G. G. Williamson, R. C. Marquez, F. Brooks, Harry W. Lewis, D. G. Cole and J. A. Nunn.

Judge West appointed A. S. Bradford as foreman. Bradford was sworn in by Clerk Burke, and then the remainder of the grand jurors were given the oath.

Judge West read the following charge:

Gentlemen:—Under the constitution of this state, it is the duty of every judge of the Superior Court of each county to draw and summon a Grand Jury at least once a year, and in pursuance of this Constitutional requirement and in obedience to the laws enacted in accordance therewith, you have been drawn and summoned at this time to perform the several duties incumbent upon you.

By legislative enactment it becomes my duty to call your attention to certain provisions of the law and to instruct you that it is your duty to ascertain by careful and diligent investigation whether they or any of them have been violated and to note the result of such investigation in your report.

I call your attention to Chapter II of Title II of "An Act to repeal Title II of Part IV of the Penal Code, and to add a new Title II of Part IV of said Code in place thereof, relating to the establishment of a uniform system of County and Township Governments," passed by the Legislature at its sessions in 1907, and which you will find at page 354 of said Acts.

I call your attention to the following sections of the Penal Code, which will serve as a guide in the investigation of criminal offenses, to-wit: Sec. 915, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928 and 929. The provisions in the last Section to the effect, "That if the Grand Jury shall, in their report above mentioned, comment upon any person or official who has not been indicted by the said Grand Jury, said comment shall not be deemed as a limitation upon your power to comment upon the official conduct of the county officers. It is simply and only to the effect that if you unjustly and without good reason comment upon their official conduct, criticizing them without facts upon which to base your criticism, in such manner as to be libelous, you are not protected by the law, or in other words, it means that you must confine your criticism of public officers and persons to the facts in the case, and that you are not permitted to use libelous or slanderous language toward any officer or other person while acting as a Grand Jury, any more than you would be permitted to do as private citizens.

I further say to you, gentlemen, that the principal business that will

SEARCH BEGUN FOR MISS ANNA HODGES

Dist. Atty. Fredericks Appealed to by Relatives of Former Tustin Resident

LOS ANGELES, Dec. 1.—District Attorney Fredericks today began a search for Miss Anna Hodges, a Boston school teacher, who has been missing since she received a legacy of \$30,000 several years ago. Search was instituted recently by the woman's brother-in-law, Warren T. Currier of Boston, has proved fruitless and Currier is appealing to the district attorney. He believes his sister-in-law has met with foul play.

(Ed. Note.—Miss Hodges was formerly a school teacher in Tustin, later living in Los Angeles with a Mrs. Gordon, at one time a resident of Santa Ana, when she was Mrs. C. C. Monaghan.)

MUTINY AT MACAO QUICKLY OVER—NEW GOVERNOR NAMED

LISBON, Dec. 1.—It has been officially announced that quiet has been restored in Macao, where Portuguese soldiers and sailors mutinied. Judge Marques Vidal has been appointed governor to succeed the former executive who resigned after granting the demands of the mutineers.

FACE BURNED IN EXPLOSION

F. W. Mansur Was Injured in Distillate Flames This Morning

F. W. Mansur had one side of his face severely burned this morning in an explosion of distillate in the basement of the Orange County Title Co. building. The furnace in that building has a wood burner. Yesterday a distillate burner was put in. From the first there was some leakage. This morning when Mansur went to the basement to start the furnace he found that during the night there had been quite a little leakage. He wiped this up thoroughly and thought it safe to start the fire. When he struck the match there was an explosion. The sound was audible all over the building. There was but one burst of flame, and everything was over with. No damage was done except to Mansur's face, and his mustache.

D. W. MC'DANNALD WRITES OF FIRST MOVES IN PREACHING FOR COUNTY OF ORANGE

Man Who is at Work in Los Angeles Advertising this County Writes of His Experiences

(Special to the Register)

Los Angeles, Cal., Nov. 29, 1910. Yesterday and today I have been chasing the wily advertising man, and have found him most confounded elusive. To my disappointment I have also found that Orange county is woefully short on advertising matter, although she stands fully 16 hands in opportunity.

A large hand bill on each of the street cars bore the information that "Barney Oldfield has come back." That was yesterday. Tomorrow I expect them to be placarded with the information that McDannald has come to town to preach the gospel of prosperity as laid down in the broad, fertile acres of Orange county. While there is no "unprecedented rush" of tourist travel just now, yet all the overland trains are full of people, many of them coming to stay. And why shouldn't they, when there is no other country on earth like Southern California?

ENTHUSED BY ADDRESS OF MRS. JOHN SWANNER

Santa Ana Woman's Support of Teachers Bill Endorsed by Club Convention

SAN BERNARDINO MEET IS STUDYING VITAL ISSUES

Endorses Conservation and Forestry Ideas of Pinchot and Roosevelt

SAN BERNARDINO, Dec. 1.—Enthusiastic support of the proposed teachers' retiring bill, designed to provide a pension for superannuated educators, was voiced in Mrs. John Swanner's address today in the convention of the Southern District of Women's Clubs. Her advocacy was endorsed in a discussion that followed.

Economic and political discussions occupied the morning. Pinchot's forestry and Roosevelt's conservation ideas were endorsed.

The afternoon session was opened by an address by City Superintendent of Schools Conrad of San Bernardino, on "Open Air Schools." The delegates will be entertained at a concert tonight.

Many women, delegates from clubs in Southern California, are attending this convention, which is the ninth celebrated by the district. The convention will be in session until Friday. Meetings are being held in the Woman's Clubhouse, which has been beautifully decorated with the flowers of the valley by the decorating committee.

The convention opened yesterday afternoon with Mrs. William E. Rörter, president of the Southern district, presiding. Greetings and welcome were extended by Mayor McNabb and Mrs. E. D. Roberts, president of the Woman's Club of this city.

ONE TOOTH MAY FIX IDENTITY OF BODY

Dentist Recognizes Molar As One Made for Alma Kellner of Louisville

LOUISVILLE, Dec. 1.—In the trial of Jos Wendling on the charge of the murder of Alma Kellner, aged nine years, whose body was found in the basement of St. John's church, Dr. J. C. Ruby, dentist, gave testimony that may fix the identity of the body discovered. Ruby declared that a tooth found in the jaw bone of the body was identical with one he had made for the girl.

Many testified concerning Wendling's suspicious actions prior to his disappearance on the trip ending in San Francisco, where he was captured.

Detective Burke of San Francisco, who brought Wendling to Louisville, testified that Wendling said, when arrested on the charge of murder, "If I killed the little girl and none but God sees me, He can't come down and tell."

GOVERNORS WILL GO TO NEW JERSEY FOR 1911 MEETING

LOUISVILLE, Dec. 1.—The governors' conference selected Spring Lake, N. J., for the 1911 conference. Governor Thomas Marshall of Indiana was president of today's session.

EDWARDS MAY BE IN RACE

Rumored That Postmaster at Orange May Go After the Assessorship

Orange county has no assessor, and the indications are that it will have none until the first of next week. With the death of County Assessor Scott, the office went into the charge of the Board of Supervisors, and Chief Deputy Kelly turned the keys over to the county clerk. By common consent of the courthouse officials arrangements have been made whereby anyone desiring to get at the records may do so.

The reason an appointment has not been made is that one of the supervisors, G. W. Angle, is in the northern end of the state and has not been reached by telegraph. When the Board of Supervisors adjourned at its last meeting it adjourned to Dec. 6. Under the rules of the board no meeting can be held before that time except a special meeting which cannot be called except upon the written consent of every supervisor. Angle being away, the special meeting has not been held.

Today it is rumored on the street that the dark horse in the field seeking the long-term appointment to fill the vacancy caused by Mr. Scott's death, is N. T. Edwards, postmaster at Orange. Anyone who knows Edwards knows he will make a formidable opponent. It is generally conceded that D. N. Kelly will be appointed for the short term, which will be for less than one month.

THIRTY DAY SENTENCE IS GIVEN A MASHER

Lorenzo H. Green, who lives east of Anaheim, was yesterday given a thirty day sentence in the county jail by Justice Smithwick for annoying Mrs. J. S. Allen of this city. Green persisted in an attempt to make a "mash." Mrs. Allen informed Constable Smithwick by telephone, Green having followed Mrs. Allen to her home. Mrs. Allen then went out upon the street again in accordance with the constable's request, and Green again followed her. Smithwick happened along, and the arrest was made.

ATTY. ERBSTEIN IS PUT ON TRIAL TODAY FOR JURY-BRIBING

CHICAGO, Dec. 1.—Attorney Chas. Erbstein, charged with jury bribery in connection with the trial of Lee O'Neil Browne for alleged legislative bribery, will go to trial tomorrow.

Erbstein's arrest was an incident of the sensational court procedure growing out of filing charges of legislative bribery in connection with the election of United States Senator Lorimer. Erbstein was alleged to have connections with the Browne defense.

ASSOCIATED CHAMBERS IS TO APPOINT COMMITTEE TO INVESTIGATE ANNEXATION

Between seventy-five and one hundred of Orange county's most prominent business men sat down at a sumptuous banquet in Anaheim last night. The occasion was the regular monthly meeting of the Associated Chambers of Commerce of this county. Among the men gathered at the banquet last night were men who have been closely identified with the growth and best interests of this county—many at great expense to themselves.

Last night after the splendid repast had been served, these men were called upon to discuss a matter which will probably mean more to this county than anything which has come up for a decision in the last few years. This subject of great interest was the matter of annexing that portion of Los Angeles county, which by the plans of Los Angeles in forming a county and city government, may be favorable to leaving that county and joining this. As was brought out in the discussion that followed, it was a subject that could not be dealt with hastily. Mr. A. C. Black said the matter should be thoroughly investigated before any invitations should be given out for any section to join this county.

The sentiments of many were expressed by H. V. Weisel, president of the Anaheim Chamber of Commerce, when he asked just what benefits would accrue to the people of this county at the present time if this new section of country should be added. He thought that the present conditions in this county were pretty good, and that he for one would like to be assured that there would be some benefit secured that would offset the advantages of a small, centralized county which had its business in good order, and was at present conducting the affairs of the county at the smallest expense. He advised that a close investigation should be made before any action in regard to enlarging this county should be made.

A. A. Mills of Anaheim was the next man to take the floor. In a

few words he explained the situation in regard to the proposed action of asking this portion of Los Angeles county to join Orange county. He said that Los Angeles had been working on a scheme to form a county and city government which would leave out a certain strip on its eastern boundary, including Whittier and that section. The strip of land where Los Angeles county proposes to stop is bounded on the east by the San Gabriel river. It is this strip, including Long Beach, that the members of the Chamber of Commerce were called upon to discuss last night.

In regard to Whittier and that portion of the country, there was scarcely any opposition, but when it came down to Long Beach coming into the county, there were several who were very much opposed to such action.

Mr. A. L. Reed of Huntington Beach, speaking of the Whittier country coming in, said he thought that the invitation to this portion of country could not be made too strong. He said that the advantages of adding this immense section of valuable country to this county could not be over estimated. Mr. Reed said that in his business relations with many of the leading men in Whittier, they had told him that they were much more in favor of joining Orange county, than going into the proposed new county which would lie in the Pomona Valley on the eastern side of the Puente Hills. If the plans of Los Angeles in forming the county and city government are successful, and which will be decided during the next session of the legislature, Pomona will probably be the county seat of the new county which may be formed in that valley. Mr. Reed thought that the advantages were all in favor of having Whittier in this county.

A. C. Black, the president of the Santa Ana Chamber of Commerce, was the next man to give his opinion in regard to asking this new section of country to join the county. He said that there must be a committee

or men who have enough time to make a thorough investigation into the matter before any action should be taken. He said that during the boosters' trip to Long Beach last summer the business men of that city had expressed themselves as favorable to joining this county. He thought, however, that the committee should have a thorough understanding with Long Beach, as to what they would expect in return. He said that the matter of where the county seat should be located should also be decided, as well as the apportionment of the taxes. He wanted to know what Long Beach would expect from the rest of this county in regard to her harbor improvements. He said that he was in favor of developing Newport harbor, as this would mean more benefit to this county than the harbor at Long Beach.

Mr. Black also said that the coun-

Women Who Wear Well.

It is astonishing how great a change a few years of married life often make in the appearance and disposition of many women. The freshness, the charm, the brilliance vanish like the bloom from a peach which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change. Ignorance and neglect. Few young women appreciate the shock to the system through the change which comes with marriage and motherhood. Many neglect to deal with the unpleasant pelvic drains and weaknesses which too often come with marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its fairness.

As surely as the general health suffers when there is derangement of the health of the delicate woman's organs, so surely when these organs are established in health the face and form at once witness the fact in renewed confidence. Nearly a million women have found health and happiness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. Ingredients on label—contains no alcohol or harmful habit-forming drugs. Made wholly of those native, American, medicinal roots most highly recommended by leading medical authorities of all the several schools of practice for the cure of woman's peculiar ailments.

For nursing mothers, or for those broken down in health by too frequent bearing of children, also for the expectant mothers to prepare the system for the coming of baby and making its advent easy and almost painless, there is no medicine quite so good as "Favorite Prescription." It can do no harm in any condition of the system. It is a most potent invigorating tonic and strengthening nerve tonic, adapted to woman's delicate system by a physician of large experience in the treatment of woman's peculiar ailments.

Consultation by letter free of charge. Address: Dr. Pierce's Invalids' Hotel and Surgical Institute, No. 663 Main Street, Buffalo, N. Y.

ty should go slow in the matter of annexing the territory up to the San Gabriel river. He said that this county's experience with the Santa Ana river in trying to keep it in its banks had proved a great expense and he thought it advisable not to take in the San Gabriel river at all.

T. B. Talbert of Huntington Beach was the next man who spoke. He said that he believed it was a splendid opportunity that this county had in getting Long Beach into this county. The advantages of the large harbor are very great, said Mr. Talbert, and besides that, the addition of the new strip of country would divide the voting power more evenly over the county than it is at present. Mr. Talbert's view of taking Long Beach into this county seemed to meet with the approval of a good many present, for he was the only man who was applauded.

The proposal of taking Long Beach and her harbor into this county brought L. H. Wallace of Newport Beach to his feet. He said that he was very much opposed to having Long Beach in this county at all. He said that there would be a voting population in that city alone to determine the affairs of this county. "Who knows how soon they would want to move the county seat over there?"

The majority of those present seemed to be in favor of annexing all of the strip east and south of the San Gabriel river, which would include Whittier, Downey, Artesia and also Long Beach. The motion made by A. C. Black to have a committee appointed to make a thorough investigation into the question and make a full report as soon as possible was carried. Vice President Aldrich said he would not make the appointment of that committee until he had had time to consult on the best men for that work.

Other business brought before the meeting last was the matter of the meeting last night was the matter of the Home Telephone Co. offering county, if the city of Orange would consent to allow that corporation to do business in that city. The city of Orange has seen fit not to allow the Home Telephone Company to come into that city. Manager Wilson of the telephone company was present at the meeting and explained that some time ago he had told Mr. A. A. Mills in a casual way that this free county switch would be given if Orange would let them enter that city.

Mr. William Hart of Orange was asked to give his ideas on the subject, and he said that he had come over to the meeting with the idea of hearing the subject discussed and not to discuss it, for no one in Orange seemed to know anything about the offer. Mr. Hart asked why it was that Orange stood in the way of the telephone company offering a free switch throughout the county.

Mr. A. A. Mills of Anaheim explained that the subject was perhaps a little premature, but that he thought that as the matter concerned the county as a whole, he thought it proper that the subject should be discussed, and see what the merits in the case really were. The discussion became heated once or twice in discussing whether or not it was really proper for the body to take any action in a matter of this kind, which seemed to concern the city council of Orange. Dr. Dobson made a motion that the matter be left in the hands of a committee to investigate and report at the next meeting. He said he believed that where the interests of the entire county could be benefited by allowing the telephone company to go into that city, that the business men of that city could bring enough influence to bear on the city council to allow the company to do business there. He said he felt sure that they would be benefited by better service, and also in the matter of the free switch.

A communication received from the Los Angeles Chamber of Commerce asking that the local Chambers of Commerce join a centralized body in Los Angeles to be known as the Southern California Publicity Alliance, was presented and discussed at length. The proposition was that each chamber of commerce should be allowed one delegate for each two hundred members in the organization, and that they should pay at the rate of ten dollars a delegate to carry on the advertising campaign in the East the whole year round. After a full discussion, the matter was voted down.

THE PRACTICAL EDUCATION

Sacramento people are becoming thoroughly aroused to the need for the more practical education of their young people, and especially those of the high school ages. There has grown up among them of late a decided demand for the immediate establishment of a Polytechnic school on a par with any of its kind in the state, and the example set by the people of Southern California has had a great deal to do with bringing about the change in sentiment.

Prof. J. H. Francis of the Los Angeles Polytechnic was the guest of the Civic League of Sacramento one day last week and gave an address on the especial merits of manual training and the imperative need for its introduction into the schools. He pointed out to them the injustice and want of wisdom in the old method of forcing the public schools to conform their work to the needs of the very few who expected to attend college and take up the professions, leaving the great body of the pupils to get what they could out of this sort of instruction or go without. Under this so-called "classical" system the schools had dropped into a rut and were failing in the performance of the great work for which they were designed, the making of the best and most useful citizens.

In the past one of the most difficult questions always before the conscientious schoolman was, "What shall we do with our boys?" The introduction of the Polytechnic course has done away with all of this as it gives the boy an early chance to decide upon his own life work. It also teaches him at an earlier age than was before possible that his school work is intended to prepare him for the proper performance of future responsibilities, and that the teaching of everyday will mean something to him all through life.

AFTER THE PORK BARREL

Senator Henry Cabot Lodge, of Massachusetts, in an address delivered before the Chamber of Commerce of New York state, advocated a very radical change in the present method of appropriating and expending the public moneys upon the improvement of rivers and harbors. The method he recommended was in substance the same as has been tried by his state, with excellent results, the appropriation of a large lump sum each year for harbors and lands to be turned over to the commission having such matters in charge, to be expended as that body thought to be for the best interests of the commonwealth. It was his opinion that in this way much better results would be secured at a fraction of the cost, and the experience of Massachusetts with the plan seems to bear him out.

All are agreed that there should be some change in the present method, that the work is too important and the amount expended upon it too large to be trusted to an annual contest between Congressmen to secure something for each community represented. There seems to be little reason to doubt his contention that the whole country would profit by turning these expenditures over to a board of competent engineers and a movement in that direction is promised.

AS TO FREIGHT RATES

The railroads of the country are using their time-tables to disseminate arguments in support of their desired increase in freight rates, hoping in this manner to bring the public to their way of thinking. In the last card issued by the C. B. & Q. system may be found the following paragraph: "It costs more to haul the farm produce of this country from the farms to the railway stations than it does to operate all the railroads of the United States, comprising nearly half the mileage of the world." Whatever effect this statement may have on the rate situation it is one of the strongest possible arguments in favor of better country roads and should be so accepted by the farmers. There is no economy they could practice which would bring them better returns than the building of modern, permanent roads for the hauling of their product to market, and the sooner they come to a thorough appreciation of this fact the better it will be for their net profits.

McDANNALD WRITES OF PREACHING FOR COUNTY OF ORANGE

county, then I will "spike my guns" and go home.

I understand the S. P. officials are using all the encouragement they can to induce their employees to get homes of their own, knowing as they do, that a freeholder makes a better servant than a tenant.

Mr. Kellogg furnishes a splendid example of the opportunities for promotion. Starting in the service less than twenty years ago as "call boy," with a salary barely sufficient to cover cost of board, he is now but one step below the top round of the ladder, and receives a salary almost equal to the "King's Ransom." The same opportunity of promotion is open to every man in the company's employ, and all the requirements they make of him is that he continue to be honest, industrious, and temperate. The company owns quite a little "truck" patch here—160 acres, upon which they make, build and construct every part and parcel that goes into the equipment of the rolling stock of a great transcontinental railroad, from a tiny coil spring, to a 1500 ton locomotive. The inventive genius of man is better exemplified and portrayed in one of these big machine shops than any place I have been. I saw what they call a "baby" crane pick up a hundred ton engine and swing it over from one track to another without uttering a grunt or saying "ouch, that makes my back ache."

I saw giant drills boring inch holes through hardened steel plates with apparently as much ease as a warm knife would pass through a roll of butter, or as readily as I can spot a "tenderfoot" from a "pioneer." Everything about the shop is done with machinery—no lifting, no pulling. The crane takes the place of the hand-spike, and the trip-hammer the place of the sledge. Great planing machines dress off the uneven edges of heavy car wheels as quickly as a carpenter would smooth a fine board.

I would like to tell you about the wonderful machinery I saw at work in an hour's pleasant visit to the shops, but possibly you have been there and could tell the story more interestingly.

As I passed the corner of Temple and Main streets, I was attracted by an elegant four-story, marble and granite building, bearing across its face this well remembered legend, "United States Postoffice." Curiosity induced me to go inside, and with the instinct of habit I called at the delivery window to be greeted with that old familiar answer, "Nothing for you." It seemed queer that from among the 150,000 letters that pass through the office every day there should not be one—just one—coming to me. It's barely possible I got into the wrong pew. So many new and startling things coming upon one so sudden, is liable to make him forget his name and number. One of the supernumeraries in the capacity of employe of our "Great Uncle" very kindly showed me the inner workings of the office, and how they managed to handle tons of mail matter every day without a second's delay, or the misplacing of a single package. "System" is the key note to every act and appliance. Every step of every clerk, either indoors or out, is tuned and timed to a system; even the horses that draw the mail wagons are trained to a systematic gait. A miniature car track, circling the distributing room on an elevated course, picked up the mail from each division, and delivers it to its appointed station with the precision and certainty of human disappointment, and taxes. Letters dropped in the "mail box" are picked up by an endless belt and conveyed upstairs to the sorting room, where the good, I suppose, are separated from the bad, and those that are addressed in an undecipherable hand are sent to the dead letter office to be rehabilitated and sent home. It's a great system, this mail service of Uncle Sam's, and the more we use it the better it gets.

TRACING COUNTERFEITS.

Exciting Employment For Skilled Secret Service Men.

The tracing of counterfeit bills back to the persons responsible for their issue is a curious and exciting employment. The expert assigned by the government to this work are among the most skillful members of the secret service. The protection of the currency depends in large measure upon their efficiency, and the pains they take are almost infinite. The following case is one illustrating the difficulties which the secret service people meet and overcome:

A bank clerk in Cleveland had detected a counterfeit twenty dollar bill in the deposit of a small retail grocer. An expert was sent for and undertook the case.

He found that the grocer had received the bill from a shoe dealer, who had it from a dentist, who had it from somebody else, and so on, until the secret service man finally traced the bad note to an invalid woman who had used it to pay her physician. When questioned this woman said that the money had been sent her by her brother, who lived in New Orleans.

The sleuth looked up the brother's antecedents and soon became convinced that he was the man wanted. The brother, however, soon proved to the satisfaction of the secret service man that his suspicions were unfounded. Indeed, it appeared that the money had been received by the New Orleans man in part payment for rent of a house he owned in Pittsburgh. While the sleuth was a bit discouraged, he couldn't give over the case when he had gone so far, so he took the next train for Pittsburgh.

The tenant of the house in Pittsburgh proved to be a traveling oculist who spent most of his time in the middle west. The secret service man had the good luck, however, to catch him just as he had returned from a trip, and the man at once recognized the bad bill as one that had been given him by a patient in Cleveland, the very point whence the sleuth started.

The patient was a boss carpenter. The secret service man got his address from the oculist and went right after the new clew. At this point he had a premonition that something was going to happen, and he wasn't disappointed. The carpenter, an honest old fellow, said that he had received the bill from a certain Parker. The said Parker was the small grocer in whose bank deposit the counterfeit had turned up. The expert flew to the grocer's as quickly as a cab could take him and found it closed. He had left town.

Afterward it was shown beyond question that the grocer was the agent of an organized band of counterfeiters. His shop was a mere blind. That the bill which he gave the carpenter should get back into his own funds after traveling all over the continent was one of those miracles of chance for which there is no explanation.—Chicago Record-Herald.

A Dean Ramsay Story.

Dean Ramsay's memoirs contain an anecdote of an old woman of Starthopey. Just before her death she solemnly instructed her grandnephew, "Willy, I'm deelin', and as ye'll hae the charge o' a' I have, mind, now, that as much whisky is to be used at my funeral as there was at my baptism."

Willy, having no record of the quantity consumed at the baptism, decided to give every mourner as much as he wished, with the result that the funeral procession, having to traverse ten miles to the churchyard on a short November day, arrived only at nightfall. Then it was discovered that the mourners, halting at a wayside inn, had rested the coffin on a dike and left it there when they resumed their journey. The corpse was a day late in arriving at the grave.

Interest in Ancient Days.

As a rule, the ancients frowned upon the idea of interest. They called it usury, and, except in the case of wardships and trusts, when the law insisted upon money being usefully invested they looked upon the man who lived by investments as a bad character and his trade as a disreputable one. Even Aristotle, a most advanced thinker in many respects, talked most energetically against money, calling it a "barren thing, which could produce nothing without violating nature." It was not until the crusades that the money lender had any standing or respectability in Europe.—New York American.

Sunday Traveling.

Old time acts of parliament in Great Britain aimed to stop Sunday traveling. In 1669, for example, two men were found guilty of the crime of walking from Bristol to Bath on a Sunday and were at once fined 20 shillings (\$4.80) each. All business was at a standstill on a Sunday. Nothing was allowed to be sold except milk. For all the traders of England the milkman, and the milkman alone, was allowed to pursue his calling for the whole seven days of the week.

Slaback-Martin

J. H. Slaback, aged 70, and Mrs. Ellis Martin, aged 60, were married Wednesday evening, Nov. 23, by Rev. H. E. Murkett, pastor of the First Methodist church.

Mr. and Mrs. Slaback went immediately to Los Angeles, spending a week in visiting friends there and in trips to the beach resorts. They returned last Tuesday evening to Santa Ana, and are in their own home, 314 Walnut street.

Welcome for Traveler

Martin Henriksen, an employee of Pendleton's lumber mill, returned Sunday from a visit with his father, who lives in Denmark.

Wednesday night the young folks gathered at the home of Wm. McGary, where Martin makes his home, and gave him a surprise party. Everybody had a pleasant time, and it is needless, to those who know him, to say everyone is glad Martin has returned safely from his trip. He was gone about six months.

Art Study Club

A most pleasant and profitable evening was spent on Tuesday last, at the home of Mrs. A. J. Crookshank, by the Art Study Club. The resident members present were pleased to have with them as a guest, a past member, Mrs. C. A. Langworthy, now of Redondo.

After necessary business was disposed of, two very interesting and

instructive papers were charmingly read, the first by Miss Cubbison on "The History of Chinese Porcelain," and the second by Mrs. A. J. Crookshank on "The Classification of Chinese Porcelain."

Miss Cubbison read a letter from Mrs. Gray, who, as many of her Santa Ana friends know, is now a missionary in China. The letter was greatly enjoyed by all and it gave the surprising information that beautiful, perfect pieces of old Chinese porcelain are difficult to procure in the cities of China.

The earliest authentic account of the making of Chinese porcelain tells us that it dates back to 960 A. D., and that the highest point of perfection was reached in the eighteenth century. The glory of discovering true porcelain about 1000 years ago belongs entirely to the Chinese, and their porcelain still continues to surpass that of all other countries.

For centuries there were many wonderful legends concerning its origin and its properties. One of these legends was that it possessed mystical virtues which enabled it to protect its owner from poison, and for many generations it was believed that a cup of porcelain changed its color and flew into many pieces at once when a poisonous draught was poured into it. Because of these legends the dealers in porcelain were able to ask fabulous prices for their wares.

Porcelain making in China is divided into four great periods and the history of the developing of the art and the use of different colorings and the descriptions of the different styles during the several dynasties is very interesting. After the opening of the nineteenth century the history of the art shows that Chinese porcelain gradually declines. Since 1861, however, the Chinese have produced large quantities of porcelain wares fully equal in every respect to the old famous glazes.

The four great classes of porcelain are: The clear white, unpainted, representing ivory, the painted with colored glazes, the painted in colors under the glaze, so popular in Holland, and which they try to imitate in the well known Delft ware; and the fourth class is the painted in colors over the glaze. This last is the most common.

The value of the porcelain to the Chinese is that the figures are emblematical of something in their

lives, each piece personifying some event or season.

Mrs. Crookshank had several pieces of china which gave an idea of the different colors, kinds of glazing and of the personifications, which she so pleasingly explained.

A Birthday Spread

Fred Mitchell had a birthday yesterday and the event was pleasantly remembered by his employees, who ordered a handsome birthday cake at the Dragon. This, with hot coffee, was served in the forenoon, and good wishes for future prosperity and many more birthdays were heaped upon Mr. Mitchell.

Santa Anans at Convention

Mrs. L. H. Mills of the Woman's Club, Mrs. A. J. Lawton, Mrs. A. J. Padgham of the Santa Ana Art Club, Mrs. John Swanner, Mrs. E. M. Nealley and Mrs. S. M. Davis of the Santa Ana Valley Ethel Club, are attending the Southern District convention of Women's Clubs at San Bernardino.

Metropolitans at the Bell

The Metropolitans gave another enjoyable entertainment in Santa Ana Wednesday evening at the Bell. The Ladies' Philharmonic Orchestra numbers were well rendered. The ladies appeared well on the stage and their music sounded well to the appreciative audience.

Adaline Filides, the soubrette, made a hit in the "Yama-Yama Man," as she made eyes in the dark, but was even more cute in the "Red Head." Especial mention is due Estelle Bird, the Metropolitan prima donna. Her numbers were "Havana," the "Rosary," a selection from "Tales of Hoffman," and "The Love Dance," from Madame Sherry. Miss Bird's ease and grace in stage work are most pleasing. Her sweet voice, so well controlled, delighted every listener last night.

The Metropolitans are good.

Birthday Dinner

Last night a 6 o'clock dinner was served at the Bush street home of Mr. and Mrs. Frank Miller in honor of their daughter, Velma's seventh birthday, the little girl's guests being her grammar school teachers, Misses Paul and Snure and Miss Caroline Haughton, her teacher in the Conservatory of Music.

The table was attractive with decorations of pink and white carnations and a birthday cake, and the delicacies of a well served dinner.

The affair was in the nature of a surprise and was most pleasant to the little hostess, her guests and her parents.

Santa Anans in Mexico

The following communication from Mrs. J. M. Atkins, who, with her husband, went to Mexico several weeks ago, was received by a member of the Register staff today, and is dated Nov. 27, at Bequillos, Sinaloa, Mexico:

"We are still in Bequillos, a small interior town 24 miles from the railroad, and about 12 miles from Mocerito. We are well and having a very pleasant time living among the natives, who are a kind, good people to live among.

Please assure all our friends that we are in no danger, notwithstanding the reports of trouble. It is a long way from here.

NEW TOWN TO HAVE A BANK

Placentia Expects to Have Financial Institution With Capital of \$50,000

Anaheim Gazette: A. S. Bradford, booster-in-chief for the new townsite of Placentia, was in town on Saturday afternoon and left in his wake a spirit of enthusiasm which threatened to become epidemic. "We shall have our charter for the Placentia National Bank in a fortnight," he said. "It will be capitalized at \$50,000, and Messrs. Chapman, Wm. Crowther and A. Pierotti will be interested in it with myself. There is more than a million dollars back of it, and we are going to do business from the start. Two packing houses are erected and oranges are being packed and shipped. Three other packing houses are in course of erection, and will handle oranges before the season is fairly opened. Stores are in progress, and we are going to have a town. We are going to ship 1000 cars of oranges and other produce from our station the present season. Show me a town that can beat it."

Mr. Bradford arrived in Placentia from Massachusetts so long ago that the memory of the oldest inhabitant runs not to the contrary. He began making money, and has not let up at it to this day. Associated with him in his banking enterprise are a number of the wealthiest men of the neighborhood, and that it will be an instantaneous success goes without saying.

HAPPY, HAPPY. USE TIZ

A Marvel for Sore Feet. Acts Right Off

Sore Feet? Never After Using TIZ—Good-bye sore feet, aching feet, swollen feet, sweaty feet, smelling feet, tired feet.

Good-bye corns, callouses and bunions and raw spots.

You've never tried anything like TIZ before for your feet. It is different from anything ever before sold. It acts at once and makes the feet feel remarkably fresh and sore-proof.

TIZ is not a powder. Powders and other foot remedies clog up the pores. TIZ draws out all the poisonous exudations which bring on soreness of the feet, and is the only remedy that does. TIZ cleans out every pore and glorifies the feet—your feet.

You'll never limp again or draw up your face in pain, and you'll forget about your corns, bunions and callouses. You'll feel like a new person.

If you don't find all this true after trying a box of TIZ, you can get your money right back.

TIZ is for sale at all druggists at cents per box, or it will be sent you direct if you wish from Walter Luther Dodge & Co., Chicago, Ill.

Just Like Cricket

According to the new football rules there will be three intermissions during the game.

That's so much like dear old cricket, don't you know.

The whistle blows, the game stops, the players flick the dust from their cuffs.

"Come, boys," says the trainer—always so gentlemanly and thoughtful—"come and take some tea."

So they trot across to the tiring room and sit around on the cushions, quite comfortably, and sip the fragrant Bohea, or the aromatic Lipton—clear, a nd with lumps, and when the whistle blows the recall they put their spoons in their saucers and amble back to the field prepared to renew the brutal nudging and wrist slapping.

It was just a lovely idea to make the once vicious sport, a between-the-tea-cups game, don't you think?

SURELY MAKES DYSPEPSIA GO

Heartburn, Indigestion, Gas and All Stomach Misery Vanishes

—Nothing will remain undigested or sour on your stomach if you will take a little Diapiesin occasionally. This powerful digestive and antacid, though as harmless and pleasant as candy, will digest and prepare for assimilation into the blood all the food you can eat.

Eat what your stomach craves, without the slightest fear of indigestion or that you will be bothered with sour risings, Belching, Gas on Stomach, Heartburn, Headaches from stomach, Nausea, Bad Breath, Water Brash or a feeling like you had swallowed a lump of lead, or other disagreeable miseries. Should you be suffering now from any stomach disorder you can get relief within five minutes.

If you will get from your pharmacist a 50-cent case of Pape's Diapiesin you could always go to the table with a heavy appetite, and your meals would taste good, because you would know there would be no indigestion or sleepless nights or Headache or Stomach misery all the next day; and, besides, you would not need laxatives or liver pills to keep your stomach and bowels clean and fresh.

Pape's Diapiesin can be obtained from your druggist, and contains more than sufficient to thoroughly cure the worst case of Indigestion or Dyspepsia. There is nothing better for gas on the stomach or sour odors from the stomach or to cure a Stomach Headache.

You couldn't keep a handier or more useful article in the house.

LOS ANGELES PRODUCE MARKET

The old cry against the present method of handling pineapples in California was heard again yesterday morning when a large shipment of this fruit was received from San Francisco. The local dealers were forced to go through the long process of calling up the inspectors, having them come down and look over the fruit, unpack their stock, fumigate and repack. The time consumed is worth more than the fruit itself, and unless some change is made in the system, Los Angeles people will have a hard time in obtaining the succulent fruit from the Hawaiian Islands. The contention is made that the fruit should be fumigated upon arrival in San Francisco, or still better, on arrival in Honolulu, from which port shipments are made. The pines have a scale disease which the fruit experts claim may be injurious to orange and lemon trees. When the fruit is received and handled in San Francisco, it is merely looked over and without more ado shipped to Los Angeles. The dealers claim that there is as much danger of the fruit being dangerous on account of the scale in the shipment down as it is on standing around the markets. The pineapples received will sell at 8 cents a pound. Outside of the supposed scale they are in very excellent condition.

Another decline in eggs was reported. Canned are down to 43 cents and case count were listed at 39 cents, although most sales of this stock were made at 40 cents on the street. The San Francisco market was reported down to 45 cents and this, with the slight increase in arrivals and the smaller demand from retailers occasioned by the many small egg raisers who are selling in-

dividual dealer's stock form the causes for the lower prices. Arrivals yesterday were 124 cases.

Butter receipts were 11,240 pounds. This continued light arrival of butter is causing steadiness in the market. Sales of the commodity were light.

Cheese was rather quiet in trading. Arrivals of foreign cheese have been of good size during the week, and there has been a lot of trading in fancy varieties. Swiss and Northern fresh were the best traders in the ordinary varieties. Receipts were 548 pounds.

Potato arrivals were 1118 sacks. Reports from Pompo announced a 5 cent advance on spuds in that section owing to the very heavy buying of San Francisco operators who are in the field. That means a \$1.70 market on Pompos here until another advance is announced. Sales of the product were not exceedingly heavy.

Onion receipts were 320 sacks. The call was fair and prices were firm with possibilities of an advance. Bean receipts were only 50 sacks. The market on beans was good. Sweet potato arrivals were 467 sacks. There was a break in these on account of the bigger receipts.

Apple arrivals were 3076 boxes. The best seller of the morning rested between the Winesap and the Spitzenberg. Grapes were steady. Peaches are in little call and are moving very slowly. Pears are going up and the stock in storage is fast diminishing.

A decline of nearly 1 cent was reported on live hogs. The market on heavies, running over 250 pounds, being quoted at 7½ cents. Veal was also reported down ½ cent.

NOT GUILTY IS VERDICT

Justice Smithwick So Decided
Crisp Battery Case Yesterday Afternoon

"Not guilty" was the verdict of Justice Smithwick in his court yesterday afternoon after he had heard all the evidence in the case against Frank Crisp, charged with battery upon his employer, J. C. Healey, a dairyman. Healey told a story about an attack being made upon him by Crisp. He said Crisp hit him twice with a rock, which was produced in court, and hit him several times in the back of the head with his fist after Healey was down on his hands and knees. The rock was big enough to fell an ox, and it seemed probable that had Crisp used it as Healey said

he did, there would not have been enough whole skull left to hold a brain.

Crisp testified that Healey and he quarreled and Healey picked up a milk-stool and made as though to use it on Crisp. Crisp then picked up the rock. They agreed to lay down the weapons and went at it bare-handed. Attorney Ferguson defended Crisp.

NO DIVORCE FOR SEELEY

Judge West Puts the Woman
on the Stand and Desertion
Was Disproved

William R. Seeley of Orange, and his attorney, Tipton of Anaheim, went from the courthouse this afternoon without the divorce decree they had sought.

The whole trouble with the divorce was that Seeley and his wife, Roxis, had been separated but three months and a half, when under the law it takes a year to constitute desertion. Last Friday all things looked lovely, and the desertion plea might have worked had not Judge West brought out from a witness the fact that Seeley and his wife were living together in August of this year. West ordered Mrs. Seeley subpoenaed. The judge wanted to know all about it.

This afternoon Mrs. Seeley, in no nice frame of mind, toward her husband, took the witness stand.

"Coming down here he helped another woman on the street car, and he never helped me. He sat with her, and let me sit by myself. I don't call that courtesy. The woman is a friend of mine—that is, she used to be. She is his housekeeper now."

Mrs. Seeley said that she had gone off and left Seeley half a dozen times.

"Our tempers don't blend," she said. "He quarrels at me, and I quarrel at him. If living together meant a cat and dog life, I thought we had best live apart."

Judge West bent his questions to the point. Had Seeley and his wife lived together during the last year?

Mrs. Seeley said they had. They lived apart from June, 1909, to March,

1910. From March to Aug. 20 of this year they lived together. She paid the rent one week and he paid it the next. When they separated on Aug. 20, they sold the furniture and divided the money.

"A divorce in this case is denied," said the judge. "Certainly desertion under the law has not been shown."

"Would your honor like to look over the statute concerning desertion?" asked Attorney Tipton.

"No, I know what it is exactly."

AMUSEMENTS

He Was a Clown

Without the born gift of being naturally funny, a clown's work is one of the hardest acts to be found, and few indeed are they who make a success without the gift. The clown must be funny in many ways, singing, talking, dancing, tumbling, riding, and above all, must be original. He must laugh or cry well, at his own fun or mishap as the case may be, and if he is natural we laugh at him. The team work of McDonald and Curtis, at the Temple Theater the past three nights has delighted the big crowds with that line of pure, clean comedy that makes the clown a success. Mr. McDonald in his German comedy was well supported by Miss Curtis, and their act has been the talk all week. Mr. Roberts is fortunate in having secured them for tonight and Friday, when they present "The Man From Klondike," which is another laugh maker. Another big number, Bates & Bates, singing and talking sketch team, and new to Santa Ana, will fill out the big new show, including new pictures and songs.

Lot— —Owners

Many persons who own a lot are still paying house rent to some other lot owner. Why do this when you can build a comfortable home on your own lot? Even though you did not wish to live in the house, it would greatly improve your lot, and also give you a monthly income. The rent which you now pay, or the amount of rent you would receive each month for the house, would, in a few years, pay back the money you borrowed to build. Now the Orange County Mutual Building Loan Association of Santa Ana will cheerfully loan you the money to build. Our easy monthly terms of \$1.25 on each \$100.00 that you borrow, which also includes interest, will surely interest you. If you will telephone Red 3286, or drop me a card, I will be pleased to call.

DIRECTORY FREE

The Rowley Drug Co. and J. H. Padgham & Son, jewelers, have purchased 2000 directories of Santa Ana, the latest edition, and will present them to the residents for use in the home. This directory is more complete than any other. It contains 1344 more names than any other directory of Santa Ana. It has a complete street and avenue guide, also a householders' guide which gives the number of every building in the city and the occupant. There is no directory in the state that will compare with it in any way favorable. You can have it by calling at either of the stores of the Rowley Drug Co. or J. H. Padgham & Son and leave your name and address. Do not delay but act promptly.
